

Alaska Native Mentoring Program

Dear Parents/Guardians:

The Alaska Native Mentoring Program (ANMP) was developed under Covenant Youth of Alaska (CYAK) as a new initiative to reach young Alaska native males between the ages of 12-25. The developing program looks to disciple new believers as a way to strengthen their walk with Christ. The program will use a “tool box” (mentoring resource) which a mentor will use as a guide in a mentoring relationship. The tool box will be used in rural villages and urban areas with volunteers as the base in which the mentoring relationships will begin. ANMP works with the churches and organizations in developing mentoring sites all over Alaska.

Your child will be paired with a mentor responsible for creating a positive atmosphere by fostering cultural growth, life skills and spiritual formation. Your child has an excellent opportunity to be involved in this program. A mentoring site has been developed in your community.
